Traffic Advisory

NM 599 Interchange Project County Road 62 Closure to begin Monday April 23

Santa Fe – The New Mexico Department of Transportation (NMDOT) in early April began construction of a new connector interchange project located at NM 599 and County Road (CR) 62 in Santa Fe County.

Starting Monday April 23 – December 2012 - The cross roads between the frontage roads to NM 599 and County Road 62 will be closed. The east and west frontage roads on NM 599 will remain open. Travelers can use County Road (CR) 70 as an alternate route to cross NM 599. CR 70 is 2.3 miles north of CR 62.

There will be lane closures on the northbound and southbound lanes of NM 599 between mile post 6 and mile post 7.

Travelers can expect minor delays between the hours 7:00 a.m. and 5:30 p.m. Monday through Friday. There will be a reduced speed to 45 mph in the work zone.

During this phase construction, the contractor will begin building the new on/off ramps. Once the ramps have been completed NM 599 traffic will be detoured onto the newly built ramps.

Drivers are asked to watch for construction personnel working the area, observe temporary construction signing, and reduce speed to the posted speed limits.

NMDOT has worked closely with the public, Santa Fe County and the city of Santa Fe on the project design and planned detour. The new interchange will improve safety for the traveling public by providing an access controlled interchange.

Questions can be directed to Rosanne Rodriguez, Public Information Officer for the New Mexico Department of Transportation District Five, at (505) 476-4205.
