

## Santa Fe Metropolitan Planning Organization

*"Promoting Interconnected Transportation Options"*

### INVITATION TO A FREE WEBINAR ON DESIGN TREATMENTS TO TRANSITION TRAILS TO ROADS

**Date:** Wednesday October 15th, 2014  
**Time:** 1:00 – 2:00PM (MST)  
**Location:** City Offices @ 500 Market Street, Suite 200  
(Above REI - Map: <http://tinyurl.com/l6kejeq>)

The Santa Fe MPO is sponsoring and hosting an Association of Pedestrian and Bicycle Professionals (APBP) Webinar titled *"Design Treatments to Transition Trails to Roads"*. Full details are below. Attendance is FREE. All that is asked is that you RSVP to Keith Wilson via email if you would like to attend ([kpwilson@santafenm.gov](mailto:kpwilson@santafenm.gov)). This webinar is open to all, so please forward this invitation onto others who may be interested.

#### **Webinar Details:**

Detailed, prescriptive guidance for designing safe intersections between trails and roadways is scarce, and trail crossings often present complex, nonstandard design problems for engineers and planners. Attend this webinar for an overview of current design guidance and to learn how some jurisdictions help cyclists and pedestrians travel safely across a roadway on a trail or shared-use path. Case studies from San Jose, California, and Virginia's Washington and Old Dominion Trail will provide design examples that include at-grade and under grade crossings; trail entrances; use of signs and bollards; alternative pavement markings; and experimental use of signals.

#### **Key take-aways:**

- Understand the challenges and current guidance related to designing safe trail and road intersections
- Explore design considerations including safety issues at unsignalized crossings; preferred treatments for trail entrances; alternatives to at-grade crossings; and use of signs, pavement markings and bollards
- Learn about examples of non-standard use of pavement markings and signals that have improved safety

#### **Presenters:**

Randy Dittberner, P.E., PTOE, Regional Traffic Engineer, Virginia DOT Northern Region  
Bill Schultheiss, P.E., Vice President and Senior Engineer, Toole Design Group  
Yves Zsutty, Trail Manager, City of San Jose

If you cannot attend the MPO Showing of this webinar, details on how to register yourself can be found at the following link: [http://www.apbp.org/events/event\\_details.asp?id=381979&group=](http://www.apbp.org/events/event_details.asp?id=381979&group=)
