Creating a Bicycle-Friendly Santa Fe

A bicycle-friendly community benefits everyone, not only bicycle riders. A bicycle community includes motor vehicles, bicycles, pedestrians, and even the natural environment. The Santa Fe Metropolitan Planning Organization (MPO) is committed to making biking as convenient, appealing, and safe for everyone. For information on the MPO’s new Bicycle Master Plan created for this purpose, please visit

Smart Cycling Tips

Bicycles are vehicles and share the same privileges and duties as other traffic. This applies not only to bikes, but also to the drivers of cars. To avoid accidents, follow the rules of the road and obey all traffic signs, signs and lane markings.

When should you take up the lane?

The law is for bicyclists to ride far to the right or in the center of the road, not on the far left. You may ride far to the right or in the center of the road, not on the far left. The bike lane is on the right side of the road. The left side of the road is for bicyclists. Some of these situations are:

- On narrow streets, where traffic is heavy, or on streets that experience frequent traffic.
- On a road where there is a narrow center strip, or where riders feel that riding in the center lane will be safer.
- On a road where there is a narrow center strip, or where riders feel that riding in the center lane will be safer.
- On a road where there is a narrow center strip, or where riders feel that riding in the center lane will be safer.
- On a road where there is a narrow center strip, or where riders feel that riding in the center lane will be safer.

Why shouldn’t you ride on a sidewalk?

Riding on a sidewalk is typically more dangerous than riding on a street because cars and street dimensions or lighting fall becomes a possible point of conflict with

Bicycling Resources

Bicyclists are vehicle owners who have the proper equipment and ride safely and comfortably.

1. AVENUE MENTAL HEALTH: Remember that you are a pedestrian, too. A bicycle-riding in the sidewalk may cause the sidewalk may cause the sidewalk may cause the sidewalk may cause the sidewalk may cause the sidewalk to be blocked.
2. ADDITIONAL REFLECTION ON YOUR BICYCLE AND REFLECTORS: Additional reflection on your bicycle and reflectors can make you visible to other road users.

Bike To Work

These maps are intended to help you plan your bicycle riding routes. If there is a question you have about bike safety, or if you have questions about a particular route, or if you have questions about a particular route, or if you have questions about a particular route, or if you have questions about a particular route, you can contact your community bike program.

What equipment do you need?

Before getting on a bicycle, make sure you have the proper equipment to ride safely and comfortably.
