# *FFY 2019 & FFY 2020 Unified Planning Work Program*

## *INTRODUCTION*

The Santa Fe Metropolitan Planning Organization (MPO) has the responsibility to conduct a transportation planning process for the Santa Fe Metropolitan Planning Area. The MPO's member agencies include the City of Santa Fe, Santa Fe County, the Pueblo of Tesuque and the New Mexico Department of Transportation (NMDOT).

The Unified Planning Work Program ("UPWP") is structured to focus financial planning resources and staff where they will be most effective in responding to significant local and regional issues, and resolving area-wide problems.

The UPWP continues to balance available resources, long and short-range planning and programming; special studies, public outreach and education, data gathering, analysis and dissemination, computer modeling and program administration.

In December 2015, Congress passed a new federal transportation funding act, Fixing America's Surface Transportation (FAST). The federal fiscal years (FFYs) 2019 & 2020 UPWP has been developed in response to the FAST Act. It has a strong emphasis on measuring performance in the transportation planning process through demonstrated progress towards achieving goals and objectives of metropolitan transportation plans.

The planning factors we consider part of the transportation planning process identified in previous federal legislation include:

- Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity and efficiency
- Increase the safety of the transportation system for motorized and non-motorized users
- Increase the security of the transportation system for motorized and non-motorized users
- Increase the accessibility and mobility of people and freight and goods movement
- Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth and economic development patterns
- Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight
- Promote efficient system management and operation
- Emphasize the preservation of the existing transportation system

The Santa Fe MPO was created in 1982 as the federally designated transportation planning entity for the Santa Fe Urban Area. The Census Bureau delineates geographic areas as urban or rural based on population density and land uses. Urban and rural area populations and designations are updated after each decennial census. At the 2010 Census, the Santa Fe Urban Area population was 89,284. Federal funding for an MPO is based on its Urban Area population. The MPO Planning Area extends beyond the Urban Area to include nearby urban clusters and those areas expected to become urbanized over the next 20 years. Its current boundary was set in 2009 and has a population of 116,386 [2010 Census]. (For boundary map please see APPENDIX 1.3)

In order for communities and agencies within the MPO Planning Area to be eligible to receive federal transportation funds, the MPO must meet all planning and other requirements under Title 23 U.S.C. (for highway funding) and Title 49 U.S.C. (for public transportation funding).

The MPO is required to develop a long range Metropolitan Transportation Plan (MTP) that reflects the public vision for a safe, accessible, and efficient multi-modal transportation system. It includes goals and objectives as well as performance measures to show progress towards their achievement. The UPWP identifies the strategies and activities to guide MPO staff toward implementation of the MTP 2015-2040. It is also designed to provide baseline data to enable development of performance measures for future updates of the MTP. The UPWP FFY 2019 & FFY 2020 is a two year program with an authorized budget allocated to these tasks and development of listed products. The MPO, working in partnership with the New Mexico Department of Transportation (NMDOT), will accomplish its tasks in accordance with federal government regulations and review by the Federal Highways Administration and the Federal Transit Administration.

## ***PURPOSE***

The federal definition of a Unified Planning Work Program (UPWP) is *“a statement of work identifying the planning priorities and activities to be carried out within a metropolitan planning area. At a minimum, a UPWP includes a description of the planning work and resulting products, who will perform the work, time frames for completing the work, the cost of the work, and the source(s) of funds”* (23CFR450.104)

This UPWP covers a two year period from October 1, 2018 through September 30, 2020. It includes definitions of activities and associated work products; who performs the work, budget sources; distribution of funding to tasks; and a timeline of major activities and milestones. The following section addresses planning priorities and challenges of developing a balanced and effective work program within a limited timeframe and with limited staff.

## ***PLANNING PRIORITIES AND CHALLENGES***

The planning priorities of the UPWP follow the goals and objectives stated in the Metropolitan Transportation Plan 2015-2040. The planning activities and work products are derived from the MTP Emphasis Areas found in Chapter 2(Our Vision) of the MTP 2015-2040.

<http://santafemppo.org/mtp/>

The MTP goals include:

- ◆ Safety – A safe and secure transportation system for motorized and non-motorized users.
- ◆ System Preservation – A well maintained transportation system.
- ◆ Multimodal Mobility and Accessibility – An accessible, connected, and integrated transportation system
- ◆ Congestion Relief and System Operations – An efficient and reliable transportation system.
- ◆ Economic and Community Vitality – A transportation system that supports economic and community vitality.
- ◆ Environmental Stewardship – A transportation system that protects and enhances the natural, cultural, and built environment.
- ◆ Partnership and Regional Funding – Regional collaboration in transportation planning, funding, and implementation.

The UPWP emphasizes **planning priorities** for:

- Implementation of the updated **Bicycle Master Plan** using an innovative interactive mapping tool to track progress on the Multi-Use urban trail system; and
- Implementation of the Santa Fe Metropolitan **Pedestrian Master Plan** guiding transportation network improvements for safety and accessibility and to encourage walking as ‘active’ transportation; and
- Implementation of the Santa Fe Metropolitan **Public Transit Master Plan** increasing awareness and usage of our regional transit services.
- Incorporating safety and public health objectives into planning efforts to promote more “complete streets” within the Metropolitan Planning Area.
- Completing update of the SFMPO Metropolitan Transportation Plan 2020-2045

The activities of the UPWP are divided into four sections:

1. The *Management and Support of the Planning Process* section includes administration of the MPO in compliance with federal regulations. The focus will be on updating the Public Participation Plan with more proactive public outreach strategies incorporating social networking media. Also, on expanding technical capacity through professional development for staff.
2. The *Transportation Improvement Program* section details the respective MPO agency’s intent to construct or implement a specific project and the anticipated flow (obligation) of federal funds and matching state or local contributions.
3. The *Data Collection, Analysis and Forecasting* section focuses on maintaining the travel demand model and improving traffic data collection quality, presentation and public accessibility.
4. The *Transportation Planning* section focuses on multi-modal and “active transportation” planning, which includes implementing the Metropolitan Bicycle, Pedestrian and Public Transit Master Plans. Also, in promoting safety and “complete streets” principles by participation and review of MPO member agency plans, studies and projects. Improving public health by encouraging active transportation through planning initiatives and collaboration with public and community health agencies. Other major activities include working with NMDOT in development of a Strategic Highway Safety Plan and with City and County staff to develop strategies toward reducing vehicle related Green House Gas emissions. Finally, there will be a five year update of the Metropolitan Transportation Plan.

The current estimated budget is based on anticipated funding through the FFY2019 and FFY2020 allocations for New Mexico under the FAST Act through FHWA and FTA planning grant programs. The budget will be adjusted as Work Authorizations/Notices to Proceed are received.

## ***SANTA FE MPO MANAGEMENT COMPOSITION***

### ***Transportation Policy Board (TPB)***

The TPB has four members: the City of Santa Fe, Santa Fe County, Pueblo of Tesuque, and the New Mexico Department of Transportation. As a multi-jurisdictional entity, the MPO addresses

transportation systems and improvements as it relates to growth management and land use planning issues within the MPO Planning Area. Traffic and transportation system challenges often cross jurisdictional boundaries; therefore, the need exists for intergovernmental cooperation. The planning process is intended to be integrated with existing individual government processes, and supports established policies and plans that ensure proper coordination among agencies and stakeholders. Representatives from the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) are non-voting members and participate in an advisory capacity.

### ***Technical Coordinating Committee***

The Technical Coordinating Committee (TCC) serves in an advisory capacity to the Transportation Policy Board, with representation from the City and Santa Fe County Public Works and Planning/Land Use Departments; MPO Planning Area transit operators: Santa Fe Trails and the North Central Regional Transit District; Intergovernmental Environmental, Energy, and Sustainability Planning; the Pueblo of Tesuque; and, the New Mexico Department of Transportation. The main functions of TCC are to ensure coordination among agencies and to develop policy and project recommendations for the MPO Transportation Policy Board.

### ***MPO Staff***

MPO Staff currently includes the MPO Officer, the MPO Senior Planner and the MPO Transportation Planner. A part time planning intern provides staff support. Part time administrative support is provided by the City of Santa Fe Housing and Community Development Department where the MPO resides. The City of Santa Fe acts as the fiscal and administrative agent and MPO staff are city employees. The City is responsible for the operational functions, pursuant to requirements outlined within 23 CFR Part 450 Subpart C and 49 CFR Part 613 Subpart A as referenced in MAP-21. MPO Staff work activities are defined by the UPWP. Tasks related to federal requirements include:

1. Develop a Unified Planning Work Program (UPWP), which itemizes all transportation planning activities and includes a budget with identified revenue sources that allocates planning funds to the listed activities.
2. Develop and amend a financially constrained four year Transportation Improvement Program (TIP) for the MPO Planning Area;
3. Organize meetings and develop agendas for the MPO Technical Coordinating Committee and Transportation Policy Board;
4. Maintain the MPO Intelligent Transportation Systems (ITS) architecture.
5. Coordinate with NMDOT and FHWA planning staff.
6. Document compliance with FAST Act requirements and the federal self- certification process.

---

### ***NMDOT Planning Liaison***

NMDOT assigns a staff planning liaison to work with the MPO and local governments. Primary duties of the Planning Liaison are:

- 1) To serve as a liaison to the Transportation Policy Board, TCC and MPO staff;
- 2) To provide technical assistance for the development and implementation of the Transportation Improvement Program and other MPO work products;

- 3) To monitor work progress, contracting and billing procedures and coordinate refinements with MPO staff; and
- 4) To assist in program management through the maintenance of current records of expenditures, the reimbursement of funds, the relaying of information, and the channeling of direction from FHWA, FTA, and NMDOT.

### ***Northern Pueblo Regional Transportation Planning Organization***

The Northern Pueblos Regional Transportation Planning Organization is a transportation planning organization for Rio Arriba County, Taos County, Los Alamos County and Santa Fe County. The NPRTPO membership includes staff from cities and the four counties, the pueblos of Tesuque, Picuris, Santa Clara, San Ildefonso, Nambe, Pojoaque, Taos, Ohkay Owingeh, the Jicarilla Apache Nation, and the NMDOT. The NPRTPO elicits projects for multi-modal transportation and enhancement improvements from its members and recommends them for inclusion into the 4-year Statewide Transportation Improvement Program (STIP). The North Central New Mexico Economic Development District (NCNMEDD) is the fiscal agent for the NPRTPO. The MPO and RTPO will have direct communication to coordinate transportation planning activities on projects that impact both organizations.

### ***FUNDING SOURCES***

The program areas in the FFYs 2019 and 2020 UPWP are funded from federal, state and local sources. Federal planning funds are provided through the FHWA (Section 112- Planning (PL) funds) and the FTA (Section 5303 and 5304 funds). NMDOT administered Special Planning Research (SPR) funds may also be available for specific activities or initiatives.

Specific funding sources are presented for each UPWP program area. The funding amounts shown may be amended as necessary to reflect modifications to a program's scope of work and changes in funding availability. (See APPENDIX: 1.1 Budget Sources)
